Who Are We?

The Columbus Garden Club was organized on May 4, 1936 and was federated with National Garden Clubs and the constitution originally adopted in 1941.

The Club is organized exclusively for charitable and educational purposes including purposes such as the making distributions to organizations that qualify as exempt organizations under section 501(c)(3) of the Internal Revenue Code, or corresponding section of any future federal tax code.

The objectives of the Club shall be to stimulate the knowledge and love of gardening among amateurs, to aid in the protection of native trees, plants, birds, and other wildlife, and to encourage civic planting.

Apply to Become a Member

Becoming a member of our club is an easy process. Open and print the application, then complete it. Please do not be intimidated by all the certification and related gardening experience questions. Most members have only a fraction of the experiences, but if someone does have these gardening affiliations or interests, we want to know about it!

Once completed, mail it with your dues check (\$40/year) to the address at the bottom of the form or bring it to a meeting. Our Board will review the application.

We look forward to learning about gardening and beautifying our community together.
